

This tool is part of the Chain-Sys appLOAD suite of productivity tools for Oracle EBS environments. The other tools in this suite are appLOAD, appEXTRACT and appINTERFACE. With the complete suite of products, you get full fledged capabilities for Data extraction, migration, conversion and interface of data for Oracle E-Business Suite 11i/R12 environment with no additional programming needed.

This is an Oracle Apps productivity tool to migrate data from Oracle E-Business Suite 10.5, 10.7, 11.0.3, 11i to Oracle E-Business suite 11i/R12.

This tool aims to reduce the cost of Oracle EBS data migration activities. Business users and functional experts can confidently use this tool and migrate data without technical assistance. With appEXTRACT there is no additional programming needed for data migration needs in an EBS environment. Prebuilt migration templates are available for all the master and transactional data. The migration data can be reviewed and cleaned before loading into Oracle E-Business suite. appMIGRATE is a 100% web based product.

## Benefits

**Robust SQL Based data extraction engine.**

**Substantially reduces time and effort in data migration.**

**Migrate older Oracle E-Business suite 10.5, 10.7, 11.0.3, 11i master and transactional data into the latest releases of Oracle EBS 11i/ R12 environments without additional programming.**

**Also available as "Software as a Service"**

**Inbuilt integration engine for appLOAD and appINTERFACE tools. Integrated workflow.**

**Upto 90% savings on data migration investment.**

## Migration Templates

### Partial list of templates for Oracle E-Business Suite 11i/R12

#### Oracle EBS Track

##### Oracle Configurator

#### Conversion Templates

CZ Item Type, Item type property, Items and item type property values creation
